- The animals throughout the park are often most active first thing in the morning and late in the day.
- Use the Rider Swap option as needed if your child is not tall enough to ride all attractions. See a cast member at the ride entrance to set this up.
- Take the Wilderness Express over to the Conservation Station and Petting Zoo for more fun for little ones!
- Children of all ages will love becoming an official Wilderness Explorer! Cast Members are wonderful about catering the activities to all age levels.
- Don't forget the shows! They are great for all ages, with familiar characters & songs!
